PROFILE

Technology and Innovation Manager with 10+ years leading enterprise systems, SAP initiatives, systems integration, digital transformation, and AI-driven innovation across logistics, retail, and manufacturing. Currently leads technology at Caribetrans, an end-to-end logistics and supply-chain operation spanning freight forwarding, air and ocean cargo, customs, transportation, warehousing, and integrated distribution. Specializes in translating operational complexity into practical, scalable solutions that improve efficiency, control, business growth, and innovation readiness.

EXPERIENCE

Technology & Innovation Manager

Oct 2024 — Present

Caribetrans — Santo Domingo, Dominican Republic

Drive the evolution of enterprise systems, digital platforms, AI initiatives, and technology governance to improve operational efficiency, resilience, and business growth.

- Oversee core business platforms and integrations across SAP ECC, SAP EWM, CargoWise, web portals, APIs, and customer-facing services.
- Designed and implemented the foundational structure for AI development agents, establishing a scalable framework for AI-assisted solution delivery.
- Lead AI initiatives that strengthen internal capabilities, improve delivery models, and enable practical business innovation.
- Modernize development governance, DevOps/CI-CD practices, portal strategy, and integration architecture.
- Manage department budget, external vendors, and technology investments; partner with leadership to prioritize and deliver initiatives.
- Safeguard business continuity and operational resilience for mission-critical applications, interfaces, and digital services.

IT Solutions Manager

Dec 2021 — Oct 2024

Centro Cuesta Nacional — Santo Domingo, Dominican Republic

- Steered end-to-end design, development, and maintenance of SAP systems, ensuring alignment with evolving business needs.
- Drove process optimization and integration across SAP SD, FI, CO-PA, MM, WM, and HCM.
- Delivered integrations using XML, JSON, REST, OData, SOAP, web services, and certificates.
- Collaborated with geographically dispersed teams, business stakeholders, and partners to deliver projects.

Co-manager — SAP Profitability Analysis, Financial Accounting & HR

Mar 2020 — Dec 2021

César Iglesias, S.A. — Santo Domingo, Dominican Republic

- Implemented a ZKTeco facial-recognition time-and-attendance system, reducing overtime costs by 20% and manual entries by 98%.
- Built an e-commerce web portal integrated with SAP SD, HR, and FI-AR modules, driving a 407% increase in sales.
- Implemented foreign-currency valuation for USD, EUR, and JPY, providing key data points in local currency.
- Led the ABAP development team.

Coordinator — SAP FI / CO-PA / HCM

Jan 2018 — Mar 2020

Project Manager

Jan 2010 — Dec 2017

Centro Cuesta Nacional — Santo Domingo, Dominican Republic

- Implemented SAP HANA, data modeling, and Web Intelligence reporting; developed BI dashboards delivering key HR workforce data.
- Assisted the implementation of SAP SD and MM; conducted data migration, designed user manuals, and trained end users in SD.
- Developed interfaces between SAP and energy -measurement applications for leased premises.
- Developed applications and provided technical support for the HCM and FICO modules.

Co-owner & Project Manager — Webpoint

Jul 2007 — Aug 2009

Co-owned a web-development firm and led a multidisciplinary team delivering national platforms — DGP (pasaportes.gov.do), CNC, OTCA — with W3C/WCAG compliance; built the business plan behind a 36% share acquisition by DGTEC GROUP.

Project Manager — Comuniqué

Jan 2007 — May 2007

Delivered product-catalog, real-estate, vehicle-exhibition, and quotation systems for Induveca, Provaltur, Autoplaza, and Madesol, leading design and PHP development teams.

IT Director — Oxia Group

Sep 2005 — Jan 2007

Managed the FIDELIUM loyalty system — one million daily transactions, 70,000+ cardholders — leading a six-person team on a LAMP/PostgreSQL stack.

Software Consultant — Nextmedia Dominicana

Aug 2005 — Sep 2006

Built DGII online vehicle license-plate renewal and ALNAP e-banking in C#/.NET with IBM AS/400 integration and DB2.
